

My husband and I are new subscribers to XM radio. We CHOSE to subscribe to XM because we were not satisfied with our local radio stations' programming. Further, we enjoy the "commercial free" format for music, news, weather and sports and feel we have every right to make this choice for ourselves. We pay for our XM service and therefore we think it is our privilege as Americans to purchase the service we choose. We respectfully request that you reject the NAB's petition 04-160.
